Business Manager's Report

Brothers and Sisters,

I hope you are well. As segments of Construction season wind down, we roll into a busy Fall/Winter. There will be Biometric Screenings on November 16th in Fond du Lac at the Radisson Hotel & Conference Center and on November 17th at the Grand Meridian in Appleton. You will need to register online by going to wilbenefits.com, click on Health Fund, and select Calendar. If you need help, call our office and we will assist you.

Local #330 will have a Benefits Conference on March 5, 2022 for active members and their significant other only. An invitation will go out approximately six weeks prior.

Classes at the Training Center are already underway. Learn a new skill or maintain a current certification by registering online at liunawisconsin.org and scroll down to the training schedule tile. Laborers being trained by experienced Laborers. The more skills you have, the more likely you are to have continued employment.

Many of our contractors feel this winter will be busier than last winter throughout Northeastern Wisconsin. This should mean well qualified Laborers should have more opportunities to work. If you have been paying attention to the news cycles recently, you may have seen the Federal Contractor Executive Order. This affects all of the contractors employees when the contractor was awarded a project after Oct 15th, 2021 at places like Post offices, Federal Court Houses, or Military installations like Fort McCoy. This Executive order requires the employees be fully vaccinated against Covid-19.

OSHA has written, as of this writing, but has not published an emergency temporary standard that will require all employers with 100+ employees to have a fully vaccinated workforce. Employers without a fully vaccinated workplace will have to implement a regular testing program. While I stress, this standard is not in effect until it is published. If and when it is published, this will affect many of our Laborers. Unfortunately, our Collective Bargaining Agreements do not supersede an Executive Order or an OSHA standard. We will continue to watch this situation closely.

Stay Safe & Healthy ,

We all had an amazing time resuming the Retiree outings, and taking a ride at the Fin n Feather. As always...the boat ride and lunch were great. It was nice to reconnect with everyone. If you have ANY ideas on something for the Retirees to get together and experience....let us know. We are trying to come up with new ideas for future outings!

High School Students could win Cash Prizes in an Essay Contest for the 2021-22 School year.

Write an essay concerning labor history, including experiences of parents, grandparents, or other relatives and friends.

First place \$500
